## **Poland – JASSM-ER with Support**

WASHINGTON, Nov. 28, 2016 - The State Department has made a determination approving a possible Foreign Military Sale to Poland for Joint Air-to-Surface Standoff Missiles Extended Range (JASSM-ER) and related support, equipment, and training. The estimated cost is \$200 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Poland has requested a possible sale of seventy (70) AGM-158B Joint Air-to-Surface Standoff Missiles Extended Range (JASSM-ER), two (2) AGM-158B Flight Test Vehicles, two (2) AGM-158B Mass Simulant Vehicles, one (1) AGM-158B Flight Test Vehicle – Captive Carry, three (3) AGM-158B Separation Test Vehicles. Also included are two (2) AGM-158B Weapon System Simulators, F-16 operational flight plan upgrade for the Polish F-16C/D, JASSM-ER integration, missile containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The total estimated program value is \$200 million.

The proposed sale will contribute to the foreign policy and the national security objectives of the United States by helping to improve the security of a NATO ally. Poland continues to be an important force for political stability and economic progress in Central Europe.

The proposed sale will improve Poland's capability to meet current and future threats of enemy air and ground weapons systems. Poland will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. These weapon and capabilities upgrades will allow Poland to strengthen its air-to-ground strike capabilities and increase its contribution to future NATO operations. Poland will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Lockheed Martin of Ft. Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

All questions regarding this proposed Foreign Military Sale should be directed to the State Department's Bureau of Political Military Affairs, Office of Congressional and Public Affairs, [pm-cpa@state.gov](mailto:pm-cpa@state.gov).
